

Foreign News.

The following summary of foreign news received by the British ship *Caledonia*, is compiled from various New York papers of the 20th ult.

The British Royal Mail Steamer *Caledonia* arrived at Boston on Thursday the 19th inst. She left Liverpool at 3 o'clock on the afternoon of the 4th, and of course has made the distance from dock to dock in 2 hours short of 15 days. She encountered rough and tempestuous weather during the greater part of the voyage, which accounts for her long passage. She arrived at Halifax on the 17th, at 3 P. M., and sailed at 9 P. M. for Boston; blowing gales of wind in her teeth all the passage.

A letter has been received, dated Liverpool, Nov. 4th, stating that the British Queen which sailed on the 2d inst., had been obliged to put back to Hastings on the 3d. Cause not known.

FRANCE.—The French Minister, M. Thiers, and his colleagues, tendered their resignation on the 22d of October. The cause is thus explained. The Minister had brought the draught of the royal speech. His Majesty objected, not to the warlike wording of the speech in general or to that of any part of it, but to the announcement in one paragraph of the immediate levy of 150,000 troops more. This included the anticipated levy of the conscription class of 1841. It seems that the German Powers have made representations against the increase of the French army, pointing out its inevitable result to be not to settle the Eastern question, but to disturb the peace of Europe. The king therefore objected to any such great addition for the moment to the military force of the country. Ministers immediately tendered their resignation.

Their resignations were accepted, and the Moniteur of the 23d contains the ordinance forming a new Ministry, as follows:—

Marshal Soult, President and Minister of War; M. Guizot, Foreign Affairs; M. Dupleix, Interior; M. Humann, Finance; M. Villeneuve, Public Instruction; M. Martin (du Nord) Justice; Admiral Duperre, Marine; M. Cunin Gridaine, Commerce; M. Teste, Public Works.

According to private letters, this Cabinet gives great satisfaction at Paris to all persons of property, and to those who are truly desirous of seeing the peace of Europe maintained.

SYRIA.—The news from Syria which arrived in London on the 3d of November by the telegraphic despatch of the 31st of October, from Toulon, is undoubtedly very important, and, though it shows that the reports previously received were somewhat premature, it fully confirms the rumor of the success of the Anglo-Turkish forces, the extension of the insurrection throughout the country of Mount Lebanon, and the probable defeat of Ibrahim whenever he shall venture to meet the allied troops. The despatch from Malta of the 27th ult., giving news direct from Seyde of the 21st, confirms the intelligence from Alexandria of the 17th; and the presence of the Emir Bechir on board the *Cyclops* is likewise mentioned. It is, however, not easy to comprehend for what reason or in what capacity the Emir is said to be on his way to England—whether as a hostage, a prisoner, or a negotiator. We may, however, congratulate ourselves on having nearly arrived at the end contemplated by M. Thiers in his note. The limits of Syria will be determined by the fate of war. The forces of Ibrahim being thus reduced and demoralized, it would be absurd to suppose that an army and a General so weak as not to have been able to resist the operations of 20,000 Europeans and 8000 or 10,000 Turks on the coast of Syria, can for the future afford grounds of serious apprehension to the Sultan at Constantinople, or a pretext for sudden interference from the northern shore of the Euxine. The French, on the other hand, must be undecieved by these events as to the real character of the Egyptian commanders and their resources. The reports of renegades, and the high-flown panegyrics of the *Semaphore* newspaper, which it is said that the Pasha of Egypt had cunning enough to purchase some years ago, had altogether turned the heads of his French admirers. Their reminiscences of Egypt were revived by the hopes of a fresh alliance with the enterprising viceroy; but the game has ended in a mutual deception. At the first touch of British power, the Viceroy's Syrian dominion has crumbled like the evanescent strength of other rebellious Pashas less known to history; and in the first hour of trial Mehemet Ali has learned that, to obtain the real support of France, he must show himself strong enough to demand and to repay it.

Here, then, as we observed the other day, naturally ends the first act or epoch of this eventful history. The French Ministry is changed, the Chambers are about to meet, the fate of Syria is decided, the season for maritime operations is nearly over, the leading diplomatic representatives of Austria and Prussia have unexpectedly returned to London, and the wisest course will be, without any ill-timed retrospection as to past differences, to take up the question as it now stands, with an entirely different state of things in the east, and perhaps some change in the state of opinions in the west.—*London Times*, Nov. 4.

SPAIN.—Abdication of the Queen.—An extraordinary express of the Moni-

teur Parisien, and Messenger, contains a telegraphic despatch from Barcelona to the 16th Oct., announcing the abdication of the Queen Regent of Spain. The Ministry, in publishing the manifesto of her Majesty, intimating this event, state that they are provisionally charged with the Regency up to the convocation of the Cortes. Thus has the leading object of Espartero's traitorous intrigues been fully accomplished. This news is looked upon as confirming the report that the Queen Regent was preparing to take up her abode in France. The Palais Bourbon, in Paris, is, it is said, preparing for her reception.

The Queen is said to have taken leave of Espartero with the bitterest reproaches for his perfidy. Her Majesty ascribed all her embarrassments to his machinations, and vented her indignation against him in terms of unmeasured acerbity. "Your conduct towards me," said she, "is unpardonable, for I have ever treated you with the utmost kindness, and raised you in succession to the rank of Count of Luchana, of Duke of Victory and Morella, and Grandee of Spain; the only thing I could not make you, was—a gentleman (*caballero*!)"

ENGLAND.—The packet ship *South America*, from New York for Liverpool, was fired upon on the 2d ult. just as she was entering the Channel, by an English yacht full of men. The yacht proved to be a revenue cruiser, and the conduct of the officer in command is severely censured by the Liverpool papers.

There was a terrible collision on the 25th between the *Britannia* and *Phoenix*, two steamships which ply between London and Havre. They met at sea nearly off Dungeness Point, in the night. The *Britannia* struck the *Phoenix* just before the paddle box, the weakest point of a steam vessel, cutting her down to the water's edge. She immediately began to fill, and soon sunk. The passengers and crew were taken on board the *Britannia*.

PRUSSIA.—Berlin, Oct. 14.—The third corps of the Prussian army received orders to march to the Rhine. A short time before, the minister von Humboldt, was charged with a secret mission (of a pacific nature, it was said) to Paris, but that it was suddenly withdrawn.

TURKEY.—A fire broke out at Constantinople Oct. 11, which consumed 200 shops, 40 dwelling houses, and a Jewish synagogue, in which there was a rich collection of plate.

PROSPECTUS FOR THE CONGRESSIONAL GLOBE AND APPENDIX.

THESE works will be published by us during the approaching session of Congress. They have had such a wide circulation in the U. S., and their usefulness and cheapness are so universally acknowledged, that we deem it unnecessary to give a detailed account of what the future numbers will contain. Suffice it to say that they will be invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the U. S.—perhaps in the world. Our position at the seat of Government enables us to print them at so low a rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it requires, comparatively, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged. In some parts of the U. S., the white paper, upon which these works are printed, would sell for as much as we charge for the publications.

The Federal party having succeeded in electing their candidate to the Presidency, its leaders will now have to declare the policy they intend to pursue. They will be obliged to make it known at the beginning of the approaching session of Congress. They cannot avoid it, or put it off any longer. Those who supported them, will be eager to know how it will benefit their interests and will drive them to it. All the measures of the coming Administration, except turning out the men who hold the minor offices, must originate and be matured in Congress. The Democratic party should know them as soon as possible, to see how their interests will be affected, and their rights enroached upon, by them. There is no source from which it can obtain the information so early, so full, and so cheap, as the Congressional Globe and the Appendix. All the motions and resolutions will be given in the Congressional Globe in the exact words of the persons making or offering them. The substance of the speeches made, will be given in it, also the yeas and nays, taken from the Journal, on all the important questions. The Appendix will give the speeches as written out by the members themselves. We think it all-important that the people should be informed of the sayings and doings of their members while in session, and shall therefore spare neither labor nor money to furnish them. If the Federal members shall continue to advocate one set of measures here, and another at home, the Congressional Globe and Appendix will give their constituents the evidence to confront them.

The CONGRESSIONAL GLOBE will be made up of the daily proceedings of the two Houses of Congress, and the speeches of the members condensed. The yeas and nays on all important subjects are given. It is published as fast as the business of the two Houses affords matter enough for a number. Each number will contain sixteen royal quarto pages of small type. We expect to publish three numbers for every two weeks of the session.

The APPENDIX contains the speeches of the members, at full length, written out by themselves; and is printed in the same form as the Congressional Globe. It will be published as fast as the speeches can be prepared by the members.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech of the Appendix.

Indexes to both are sent to the subscribers as soon as they can be prepared after the adjournment of Congress.

TERMS:

For one copy of the Congressional Globe - - - - - \$1 00
One copy of the Appendix - - - - - 1 00
Six copies of either of the above works will be sent for \$5, twelve copies for \$10, and a proportionate number of copies for a larger sum.

Payments may be transmitted by mail, postage paid, at our risk. The notes of any incorporated bank in the U. S., current in the section of country where a subscriber resides, will be received.

To insure all the numbers, the subscriptions should be here by the 14th of December next, at farthest.

No attention will be paid to any order, unless the money accompanies it.
